

32nd ANNUAL JOINT INSTITUTIONS PRESTIGE LECTURE

The Queensferry Crossing

Planning—Design—Construction

A Lecture by:

**Lawrence
Shackman**

BSc CEng FICE FCIHT

**Project Manager:
Transport Scotland**

Wednesday 7th November 2018 at 6:00pm

The Albert Hall Conference Centre, North Circus Street, Nottingham, NG1 5AA

Following the discovery of corrosion in the cables of the Forth Road Bridge in 2005, work was rapidly progressed to procure and construct a new crossing.

The new Queensferry Crossing Bridge was opened by Her Majesty, The Queen, on 4th September 2017 following 10 years of design, planning and construction.

The Lecture will be followed by a panel-led discussion to consider how Engineering and Science Professionals can influence the procurement of strategic infrastructure investment.

This year's lead sponsor is the Institution of Civil Engineers (ICE)

Doors open at 17:30 for registration. Tickets can be obtained in advance through a live link on the ICE website (<https://www.ice.org.uk/events/queensferry-crossing,-nottingham>).

(Note! You do not need to be a member of ICE to access the site.)

Tickets will not be issued—please bring a copy of the booking receipt with you—this can be printed out or on your mobile phone. Tickets can also be purchased on the night at the venue (£5/person)
