

'UK Energy: the shale gas opportunity?'

Lecture will be given by

Dr Tim Fox

CEng CEnv FIMechE FRSA

Head of Energy and Environment at the IMechE

Wednesday 27th November 2013 at 7:30pm

The Albert Hall Conference Centre, North Circus Street, Nottingham, NG1 5AA

Dr Fox will discuss the potential role of shale gas in UK energy supply in the context of an increasing global demand for energy and the decarbonisation of the nation's electricity generation infrastructure. In particular he will focus on the contribution that a regional shale gas industry could make to a rebalancing of the nation's skewed economy, as well as the emerging need to reinforce the Government's commitment to the development and deployment of carbon capture and storage (CCS) technology for use with gas fired power plant.

This year's lead sponsor is the Institution of Mechanical Engineers

APPLICATION FORM

Name..... Name of Guest (If any).....

Address..... Town/City..... Post Code.....

Tel. No..... Mobile.....

Number of Tickets required..... **Tickets will be dispatched during the first week in November**

Are you a member of one of the professional institutions? : Yes..... / No.....

If yes, Please state which one?.....

This is important as tickets are allocated to individual institutions. Please note each institution's allocation is issued on a first come first served basis therefore, early application is advised. **ALL APPLICATIONS MUST** be made **BY POST** using this tear off slip or the application form which can be down-loaded from the website on www.emesp.org.uk

Please post completed slip enclosing a cheque for £5.00 per person, made payable to "EMESP" **together with a 220x110mm stamped addressed envelope** to:
